

What's the Callan Method?

Can we really learn English in a quarter of the time using the Callan Method?

The Callan Method is a revolutionary way of learning English. The first school to use this method opened in London and it is now the largest private language school in Europe. The Callan Method has also expanded and is now taught all over the world. JET English College was the first school to introduce this method to Australia.

The usual method for learning English....

With thought and translation, conversation speed is compromised.

The Callan Method....

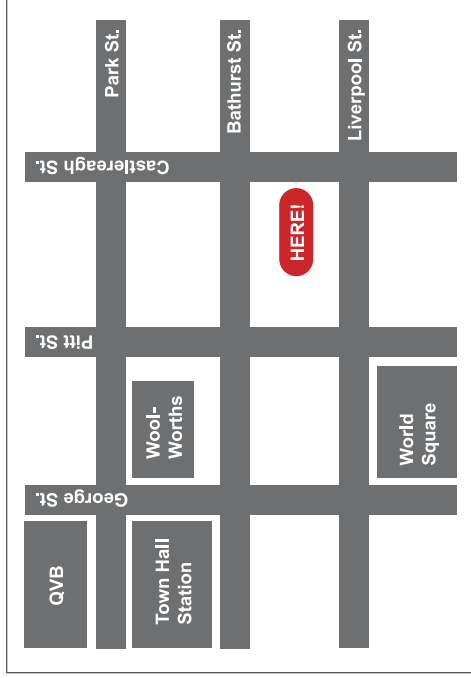

By speaking without thinking we train our minds to work at a top speed. We can also learn pronunciation and grammar.

5 keys to success in the Callan method

- 1, The secret to success is to repeat, repeat and repeat.
- 2, Speed means a lot. Think in English at the speed of a native speaker.
- 3, No homework! Everything happens within the classroom.
- 4, Speak without thinking, just like native speakers do.
- 5, Finally, just Repeat, Repeat, Repeat!

The aims of JEC

- *To teach people to learn to listen and respond to English spoken at normal conversational speed
 - *To teach people to learn to think and speak directly into English without first translating
 - *To teach practical, useful vocabulary and grammar structures
 - *To improve your pronunciation, intonation and grammar skills
- By concentrating in the classroom, you can reduce your learning time compared with other language schools. It is proven that you can learn English in a quarter of the time at JET English College!

English in a quarter of the time!
Repeat! Repeat! Repeat!

"The natives can't understand what I say, because of my terrible pronunciation."
 "My conversation slows down with the process of translating."

"I can't understand what the native speakers say, they are talking too fast."

If you've got the symptoms like these, the Callan Method is ideal for you!!

JET English College was the FIRST to use the Callan Method in Australia.

Jet English College is a Public TOEIC Test Centre.

Features of the Callan Method & TOEIC Intensive at JEC

At JEC, listening skills are thoroughly strengthened by the Callan Method, the focus is shifted to reading in the TOEIC intensive course. It aims at improving scores in a short time. The content of the course is designed by a member of staff who understands the characteristic English mistakes of Asians. Most people's reading skills are inferior to their listening skills so this course targets those areas of weakness and strengthens them. The TOEIC Intensive course together with the Callan Method is an efficient way to develop all the skills you will need for the TOEIC test.

English for Medical Purposes (Specialized in OET)

For students who want to become a registered nurse in Australia

The OET (Occupational English Test) is an English proficiency test for particular professions including English for medical purposes. The OET is recognised by all the nursing boards in Australia as satisfying the language requirements to become a registered nurse, just as IELTS is recognised. If you are having problems achieving a higher score with IELTS, why don't you change direction and gain a higher score on the OET? Our OET course is practical language for both the OET and daily medical life and is taught by a local nurse and a lecturer from the Nursing department at an Australian University. If you want more details, please contact us today!

English in a quarter of the time!

Students spend less time and less money on lessons by learning English in a quarter of the time it takes to learn by other methods
 Students reach the level of the internationally-recognized Cambridge Preliminary English Test (PET) in approximately 80 hours instead of the usual 350 hours it takes when learning by other methods and the level of the Cambridge First Certificate in English (FCE) in about 160 hours
